

Is the end really coming or are we on the threshold of a magnificent new age?

Divorcing hype from truth, *2012, Extinction or Utopia* not only scrutinizes the ancient Mayans' 2012 end date, but takes a broader look at a wide array of doomsday beliefs from biblical times to today, all designed to see how foretelling the future stands up to the harsh glare of historical reality and logic. Are we a doomed race destined for destruction or is humanity on the brink of realizing a golden age? You'll have to buy the book to find out!
